remine itself.

That a thorough investigation of the subject will be made by the Senate Committee on Privileges and Elections now appears to be beyond doubt. By those who are pressing the investigation, it is said, it will be more comprehensive and scarching than any similar inquiry ever has been. An effort will be made to ascertain accurately the attitude of the Mormon Church toward the government of the United States and to learn whether or not a member of that organization is bound by any piedge or oath, the taking of which is incompatible with his oath as senator of the United States.

Mr. Lamar (Democrat), of Florida, offered a resolution, announcing that he desired to impeach Judge Swayne, A lively debate was had before the resolution was adopted. A number of the memetrs on the majority side fought to have the resolution referred to the Judiciary Committee that a recommendation might be had from that committee before voting on its adoption. Mr. Lamur (Democrat), of Florida, rising to a question of privilege after anouncing that he would ofter a resolution, in which would be embodied a joint resolution of the Florida Legislature,

said:
"In pursuance of that joint resolution, I desire to impeach Charles Swayne, judge of the United States District Court for the Northern District of Florida, with high crimes and misdemeanors."

The resolution, after reciting in the preamble the resolution of the Florida Legislature says:

"Resolved, That the committee of the judiciary be directed to inquire and report whether the action of the H-pse is requisite concerning the official misconduct of Charles Swayne, judge of the United States District Court for the Northern District of Florida, and say whether said judge has held terms of his court as required by law; whether he has continuously and, persistently absented himself from the said State, and whether his acts and omissions in his office of judge have been such as in any degree to judge have been such as in any degree to deprive the people of that district of the benefits of the court therein to amount to a denial of justice; whether the said judge has been guilty of corrupt conduct in office, and whether his administration of his office has resulted in injury and wrong in litterature of his court."

Mr. Fuller (Republican), of Illinois, said the resolution should not be refarred, but should be voted down, charging that it did not contlan a single specification. The humblest citizen, he said, was entitled to be furnished with specific charges before being placed on trial. He declared that it would be useless to refer the resolution to the Judiciary Committee, saying that that committee would be obliged to report it back with a report that there was nothing in it to warrant action, Mr. Lamar said:

"As I understood, this objection made by the gentleman from Ohio (Mr. Grosvenor), is that I do not charge Judge Swaylie with any specific charge, I do charge him generally with high crimes and misdemeanors. Why should I be forced to state when the proof is to be submitted to the Committee on Judiciary, the specific matters upon which that general allegation is made. Every single crime that this judge is capable of committing, is charged when I charge him of high crimes and misdemeanors. But if the gentleman desires that I shall make any charges scriatim, I charge this judge first, with continued, persistent, and if you please, perniclous absenteeism from his district; second, with corupt official conduct, based on several matters: third, I charge Judge Swayne with the maladministration of judicial matters in his court, so much as to embarrass bankrupts and annihilate the assets of litigants and others appearing within his jurisdiction."

His Trousers Patched.

A little girl who takes music lessons from same music teacher that is the instructor of Arcle Roosevelt, the eight-year-old son of the President, told me a story about the young hopeful to-day, which seemed to interest her mightily. "Archie Roosevelt came to school to-day with a patch in his trousers," she said, and she seemed surprised that the son of the President of the United States should ever have on patched garments. "It wasn't a big one," she went on, "but it was a patch. I wonder if his mother patched that hole, It was raining when Archie came in, I asked what it was doing, and he said. The Utah Contest. Congressional callers at the White House are manifesting increasing interest in the case involving the seat of Senator Smoot, of Utah, and the indications now are that the contest, which, it is asserted is certain to result from the present agitation, will rival in importance and in carnestness the case of Hrigham H. Roberts before the House of Representatives a few years ago. While the President is familiar with the developments thus far in the Smoot case, no effort is being made by either side to draw him into the controversy, the realization being general that it involves a question which the Senate must determine itself. **GOES TO REST**

(From Our Regular Correspondent.)
WASHINGTON, D. C., Dec. 10.-Major Norborne T. N. Robinson, of this city formerly of Louisiana and an ex-Confederate officer of distinction, died in this city late last night. The funeral services will be held at St. Mark's Episcopal Church to-morrow afternoon and the remains will be taken to Clarke county and interred in the old Chapel Cemetery, near that place.

Oath of Allegiance.

It is believed by some, at least, of those who are opposing Senator Smoot, that any effort made to prove he is a polygamist, would result in failure, and, while that point cannot be said to have been abandoned absolutely, it is quite certain the opposition will concentrate its endeavors to prove that the position he holds in the Mormon Church is incompatible with the oath of allegiance he has taken to the United States. That proof must be ample, in the opinion of senators, before he can be unseated.

As to the ability of the opposition to Senator Smoot to establish such a proposition, there is a wide divergence of colinion among senators, but there is a pretty general agreement that if it should he established its result would be the unscating of the Utah senator. Major Robinson was well known in Virginia, having been educated at Hampden-Sidney and the University of Virginia, and since the war had frequently visited and since the war had frequently visited in various parts of the State.
